

### OVAL PARK COVID USAGE - REVISED

1. Our timings have to be spot on as does our adherence to the process with no 'interpretations'! No Sunday training at OP for the Juniors please until we have settled in the Mini/Midis.
2. For now players/coaches need to come down changed – we are not using the changing rooms - similarly with regards to the clubhouse rooms. However, the Ladies toilets can be accessed via the fire door next to them while the Gents toilet in the changing room area is available and accessed via the door at the side of the building. Please ensure that the outside doors are lodged open and the internal door from the lobby to the changing room corridor is locked.
3. Prior to the first training session (or as soon as practically thereafter) for each player a Medical Questionnaire (MQ) and Risk Mitigation (RM) form has to be completed – by the parent of U16's and below and by the player themselves if a Colt or Senior. These only need to be completed the once and kept by the Team Manager. Any parent(s) coming down to watch can put their details on their child's form too.
4. For the training sessions themselves, each group will have a register sheet kept in a folder in the kit shed (see attached blank). The player and parents (in case they stay to watch) need to have their names put down and a parent contact number entered (not the player's) – keep these up to date please. **The Club's policy is for groups' attendance registers to be left in the folder, GDPR rules were not designed for a pandemic, there will be no contact details for a child – all the parent's.**
5. **TEMPERATURE CHECKING STATION. This is for EVERYONE who drives/walks through the gates between the inner and outer car parks, the check point is between where the spaces in the middle of the inner carpark are situated and the row of spaces near the hedge. THERE ARE NO EXCEPTIONS EVEN FOR DROP-AND-GO PARENTS. This is to give plenty of room for waiting cars coming off Wigston Road and for cars leaving the site.**
6. **There is a supermarket trolley in the kit shed which is to be wheeled over – it will have the device and folder in it together with the potential COVID symptom questions which need to be asked. The reasons why we insist on this will be clear in time.**
7. Once the temperature is checked, the player or can be 'ticked' in by the volunteers running the checking then needs to move away asap. Parents who stay in their car on-site still have to be temperature checked. NB a temperature in excess of 37.8 degrees C needs to be recorded before the person/car is sent home and/or isolated until a lift can be arranged..
8. **There is no parking on Oval Park on Sundays** for the time being, unless you are a manager/coach or blue badge holder - or you are working in the kitchen/bar when we have them up and running. This restriction applies for 'drop and go' parents as well. The industrial estate and Parklands' overflow (see the website blog) are available. As matters improve this will change, thank you for your understanding and cooperation.
9. **'Drop and go' parents on weekday evenings** should queue at the checking station however and then leave at once. They should return as close to the end time for session as possible – and not leave their cars to 'have a chat'.
10. **There is to be no parking in the spaces alongside the roadside hedge in the outer carpark so incoming cars can queue tidily for their turn at the checkpoint. The spaces by the changing rooms are for people staffing the kitchen/bar etc and for those blue badge holders who cannot find a space in the inner carpark.**

11. We aim to have a 'rubble bucket' for each pitch, and disinfectant in the kit shed, to disinfect kit and balls - water from the tap next to the door to the Tigers' laundry. Please do not empty the contents out on the grass when done, it will 'burn' it!
12. Your group cannot train at Oval Park unless either Chris Anderson (for the Mini/Midi's) or Chris de Luca (Juniors/Girls) is satisfied that you are absolutely clear as to what has to be done. The new Parent Spectator Areas can be introduced at this point too. Tuesdays @ 6.15 to see U14s doing it and/or Wednesdays at the same time to see other groups. Then you will be able exactly verbally explain to your parents what is required of them as well as send them (all or part of) this email. Each group is responsible for their own compliance. To seek further clarity is code for "how do we get round the rules" but there will be changes as we progress into the season and along the alphabet of stages!

RFU Guidelines for training times:

U7/8s = 60 minutes      U9/10/11 = 90 minutes      U12/113/14/15/16 = 120 minutes

Sunday Timings:

Age Group	Check in time	Pitch	Training starts	Training finishes
U6/7	9.00	1	9.15	10.15
U8	9.15	1	9.30	10.30
U9	9.30	2	9.45	11.15
U10	9.45	2	10.00	11.30
U11	10.00	3	10.15	11.45
U12	10.15	3	10.30	12.00

I would suggest that these are maximum times. The only difficult time will be with the U6/7s finishing and U12s arriving.
